

Appendix B

Developmental Tables

States will not be requested to provide these data tables for FY 2002-2004. Definitions of some of the data elements are still provisional. Also, many states do not have the capacity to report these data. For these reasons, these tables have a developmental status: states will be requested to provide these data as part of the requirement for the data infrastructure development grant. Most of these developmental tables are modifications and revisions to the 12 Basic data tables.

Table 13. Profile of Unmet Needs of the State Population

This table provides estimates of adults with serious mental illness and children with serious emotional disturbances that have unmet service needs. This table is to be completed based on a standardized unmet needs estimation methodology being developed by the Center for Mental Health Services. CMHS will provide the methodology for estimating unmet needs to each State.

Table 13.		
Report Year:		
State Identifier:		
	Current Report Year	Three Years Forward
Adults with Serious Mental Illness (SMI)		
Children with Serious Emotional Disturbances (SED)		

Table 14A. Profile of Persons with SMI/SED served by Age, Gender and Race/Ethnicity

Table 14B. Profile of Persons Served, All Programs by Age, Gender and Race/Ethnicity

Of the total persons served, please indicate the age, gender and the number of persons who meet the Federal definition of SMI and SED and who are Hispanic/Latino or not Hispanic/Latino. The total persons served who meet the Federal definition of SMI or SED should be the total as indicated in Table 14 A.

Table 14.B				
Report Year				
State Identifier:				
Age	Not Hispanic or Latino		Hispanic or Latino	
	F	M	F	M
0-3				
4-12				
13-17				
18-20				
21-64				
65-74				
75 +				
Not Available				
Total				

Table 15. Profile of Persons Served in Institutional and Non-Institutional Settings

Table 16B. Profile of Adults Receiving Supported Housing Services

Of the total clients receiving supported housing, please indicate the age, gender and number of adults who are Hispanic/Latino or not Hispanic/Latino.

Table 16.B				
Report Year				
State Identifier:				
Age	Not Hispanic or Latino		Hispanic or Latino	
	F	M	F	M
0-3				
4-12				
13-17				
18-20				
21-64				
65-74				
75 +				
Not Available				
Total				

Table 18. Profile of Client Turnover

This table examines the client flow through the public mental health system for several specific, high priority services. For the identified services, State are asked to provide a count of new clients served during the report year, clients who were discharged during the report year, and an average length of stay for clients in each service category. This table expands the categories of services requested in Table 8A to include specific services that are under development by the 16-State Performance Indicator Project.

Table 18.				
Report Year:				
State Identifier:				
Profile of Service Utilization for General Hospital and Special Services.	Total Served (unduplicated)	Additions during the year	Discharges during the year	Average Length of Service (in Days)
General Hospitals				
Children (0-17 y.o.)				
Adult (18 y.o. and up)				
Assertive Community Treatment programs (Adult: 18 y.o. and up)				
New Generation Medications (Adult: 18 y.o.				
Supported Housing (Adult: 18 y.o. and up)				
Supported Employment (Adult: 18 y.o. and				
Therapeutic Foster Care (Children: 0-17				

Table 19. Summary Profile of Client Outcomes

This table expands the performance measures reported by States in Table 13A to include three outcomes measures currently under development in the 16-State Performance Indicator Project.

Table 19.		
Report Year:		
State Identifier:		
Indicators	Adults with SMI	Children with SED
Percent of Children with Increase in Level of School Attendance.		
Percent of Adults Who Have Had Contact with the Criminal Justice System Within the Last Year.		
Percent of Children Who Have Had Contact with the Juvenile Justice System Within the Last Year.
